Premium Model Thread Book Sewing Machine

**Robertson**TM

Premium Model Thread Book Sewing Machine

Robertson is one of the leading manufacturers engaged in developing and producing Book Binding Machineries such as Thread Book Sewing Machine, Perfect Binding Machine and Creasing Machine etc. to quote a few, thus serving the Printing and Book Binding Industry for nearly three decades.

Robertson has adopted latest technology in its quest to achieve perfection, speed, quality and consistency. The company has installed a record number of machines through the length and breadth of the country.

Production Speed

The construction and working of the machine permit maximum speed of 70-90 sections per minute. However, the actual output depends upon size of section, type of paper, kind of fold and the skill of the operator.

Technical Data :

| | |
|-----------------------|---------------------|
| Maximum size of Book | 18" x 9 3/4" |
| Minimum size of Book | 4" x 3 1/4" |
| Stitching Area | 15 3/4" |
| Net weight (approx) | 700 kgs. |
| Gross weight (approx) | 900 kgs. |
| Speed | 70-90 Sections p.m. |
| Motor | 0.5 H.P. |
| Space required | 5'X6' |

Salient Features :-

- ❖ Use of Bearings on Cam Runners & Livers to render smooth/silent running of machine.
- ❖ Conventional C.I. Bushes replaced with bearings for smooth functioning.
- ❖ 10 Stations at equidistance incorporated.
- ❖ Automatic Cutters provided.
